

GYS SMARTMIG 162

Single phase MIG/MAG 160A welding machine.

Product on wheels, ideal for both professional and DIY use.

Features a "SMART" Control panel enabling easy set up even for the non-professional user.

Perfectly suited to repair work on steel, stainless steel and aluminium.

Euro torch connector for easy removal of torch and wire change.

Low current consumption, suitable for use on a domestic 16 Amp power supply.

Takes both 1kg (100mm) and 5kg (200mm) wire reels.

Constant and consistent wire feed due to its powerful 40W wire feed motor.

Gas

Gasless

Constant running fan protects unit against overheating.

Delivered as standard with :

- Contact tubes
- Drive Roll Type A—No Gas
- Cored Wire Reel 100mm
