

MASADA

Part Number
SJ-50H
Working Load Limit
5,000kg

GARAGE JACKS

FEATURES

- Quality is the criteria with this equipment, a foot pedal-pumping device to raise saddle to the load quickly.
- Rear wheel castors are fitted to balance the weight of the jack enabling the operator to move the jack in any direction using the lockable handle and footplate on the rear of the jack.
- Built-in automatic safety valves prevent overloading.
- Overall construction of selected steels gives long and trouble free use.
- Warranty 12 months.
