Item# 99902 Blower Hanger™ Patent Pending

Magnetic Blower Hanger™ is the answer for fast, easy, accurate and affordable air-drying of waterborne paints

Magnetic Blower Hanger™ offers these unique benefits:

- A** **Magnetically mounts securely** to the wall using high-power magnets – No installation, drilling or booth retrofitting. Sets anywhere within the booth.
- B** **Aims precisely at targets** with a variety of full movement-left/right, up/down and angles.
- C** **Hanger Arms retract completely** against the wall when not in use – Frees aisle space and can remain in booth when not in use .
- D** **Volume of air is unrestricted** via its High Flow Components of the Hose Harness. Blowers can operate at their full potential.
- E** **Easy to use** – just plug in the air hose, set air volume, aim & lock arms at targets.
- F** **BLOWER HANGER™** serves as the primary drying system. It can also be used in conjunction with other air movement systems to increase targeted accuracy.
- G** **Works with most styles and brands** of Air Blowers.

- Dimensions: H = 20", W = 12", D = 3" D with arms retracted, up to 24" D with arms extended fully forward
- Ship weight: 16 lbs.
- Blowers and couplers not included unless otherwise specified
