

Each car manufacturer uses a different set of rivets for various car body repairs. The rivets' application and extraction is made easier with the GYSPRESS 8T and the use of the vehicle brand's specific dies.

RIVETING DIES

A1 + A2 Self-piercing Ø 3.3 mm rivets

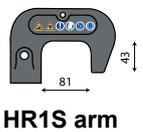

B1 + B2 Self-piercing Ø 5.3 mm rivets

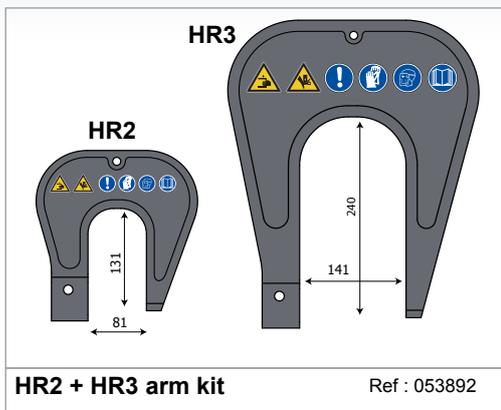

E1 + E2 Extraction of self-piercing rivets

COMPATIBILITY

These dies are designed to be used with the GYSPRESS 8T.

HR1S arm

HR2 + HR3 arm kit

Ref : 053892
