

The M-clip is used for melting in the holder of PDCs (Park Distance Controller) into the bumper. The advantage over gluing is, that with melting into the plastic the holder for the PDC is combined tighter with the bumper. Due to this step the sensible sensors cannot slip and the PDC works without trouble.

Dimensions and weight

L x B x H: 2 x 1,4 x 0,08 mm

Gewicht: 0,03 kg

TECHNICAL DATA

Material: Stainless spring steel wire
Diameter \varnothing : 0,8 mm

BENEFITS

- The used material doesn't create disturbances in electrical installations like the park distance control sensors.

SCOPE OF DELIVERY

- Packaging unit: 100 pieces
