

XPRESS WORKSTATION JLR FULL SET

CODE: 700058F

Modular Riveting System for aluminium car body repair
The heart of the XPress Work Station is the patented XLogic technology.

This innovative pressure monitoring system and the air tank integrated in the carriage's raw frame guarantee the user full process reliability* during the riveting repair process. This means that even if the air supply is interrupted by an unforeseeable event, the (riveting) work process is carried out reliably*.
