|---------|-------|----------------|---------------------------------|
| 1.0 | GB/EN | 27.08.2019 | Date of first issue: 27.08.2019 |

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 1272/2008)

| H226: Flammable liquid and vapour. |
|---|
| H315: Causes skin irritation. |
| H319: Causes serious eye irritation. |
| H335: May cause respiratory irritation. |
| H373: May cause damage to organs through pro- longed or repeated exposure. |
| H411: Toxic to aquatic life with long lasting effects. |
| |

2.2 Label elements

| Labelling (REGULATION (EC) No 1272/2008) | | | | |
|--|---|--|--|--|
| Hazard pictograms | : | | | |
| Signal word | : | Warning | | |
| Hazard statements | : | H226 Flammable liquid and vapour. H315 Causes skin irritation. H319 Causes serious eye irritation. H335 May cause respiratory irritation. H373 May cause damage to organs through prolonged or repeated exposure. H411 Toxic to aquatic life with long lasting effects. | | |
| Precautionary statements | : | Prevention: | | |
| | | P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. P261 Avoid breathing mist or vapours. P271 Use only outdoors or in a well-ventilated area. P280 Wear protective gloves/ protective clothing/ eye protection/ face protection. | | |
| | | Response: | | |
| | | P314 Get medical advice/ attention if you feel unwell. | | |
| | | Disposal: | | |
| | | P501 Dispose of contents/container to an approved facility in | | |
| | | | | |

accordance with local, regional, national and international regulations.

Hazardous components which must be listed on the label: reaction mass of ethylbenzene and m-xylene and p-xylene

2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

SECTION 3: Composition/information on ingredients

3.2 Mixtures

Chemical nature : Mixture

Components

| Chemical name | CAS-No. EC-No. Index-No. Registration number | Classification | Concentration (% w/w) |

SECTION 4: First aid measures

4.1 Description of first aid measures

| | General advice | : | In the case of accident or if you feel unwell, seek medical ad- vice immediately. Move out of dangerous area. Take off contaminated clothing and shoes immediately. Do not leave the victim unattended. Symptoms of poisoning may appear several hours later. Show this safety data sheet to the doctor in attendance. |
|-----|----------------------------|-----|--|
| | Protection of first-aiders | : | First Aid responders should pay attention to self-protection and use the recommended protective clothing |
| | | | First Aid responders should pay attention to self-protection and use the recommended protective clothing |
| | If inhaled | : | Move to fresh air. Keep patient warm and at rest. If breathing is irregular or stopped, administer artificial respira- tion. Call a physician immediately. |
| | In case of skin contact | : | Wash off immediately with soap and plenty of water. Call a physician if irritation develops or persists. |
| | In case of eye contact | : | Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Keep eye wide open while rinsing. If easy to do, remove contact lens, if worn. Consult a physician. |
| | If swallowed | : | Do NOT induce vomiting. Call a physician immediately. |
| 4.2 | Most important symptoms an | d e | ffects, both acute and delayed |
| | Risks | : | Causes skin irritation. Causes serious eye irritation. May cause respiratory irritation. May cause damage to organs through prolonged or repeated exposure. |

| - | cific hazards durir | - | Build-up of dangerous/toxic fumes possible in cases of fire/high temperature. |
| Haz ucts | ardous combustio | n prod- : | Hazardous decomposition products due to incomplete com- bustion Carbon monoxide, carbon dioxide and unburned hydrocar- bons (smoke). |
| 5.3 Advi | ce for firefighters | 6 | |
| Spe | cial protective equ irefighters | | In the event of fire, wear self-contained breathing apparatus. Use personal protective equipment. |
| Spe ods | cific extinguishing | meth- : | Use extinguishing measures that are appropriate to local cir- cumstances and the surrounding environment. |
| Furf | her information | : | Use water spray to cool unopened containers. Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. |

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

| Personal precautions | Wear personal protective equipment. Evacuate personnel to safe areas. Ensure adequate ventilation, especially in confined areas. Remove all sources of ignition. Do not smoke. |
|----------------------|--|
| | Avoid contact with skin, eyes and clothing. In the case of vapour formation use a respirator with an ap- proved filter. |

| 6.2 Environmental precautions : Prevent spreading over a wide area (e.g. by containment or oil barriers). Do not flush into surface water or sanitary sewer system. Local authorities should be advised if significant spillages cannot be contained. 6.3 Methods and material for containment and cleaning up Methods for cleaning up : Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). Keep in suitable, closed containers for disposal. Do not flush with water. 6.4 Reference to other sections For disposal considerations see section 13. SECTION 7: Handling and storage Methods or safe handling Advice on safe handling : Keep container closed when not in use. Provide sufficient air exchange and/or exhaust in work rooms. Wear personal protection against fire and explosion Advice on protection against fire and explosion : Yapours may form explosive mixtures with air. Keep away from open flames, hot surfaces and sources of ignition. Do not smoke. Take measures to prevent the build up of electrostatic charge. Use explosion-proof equipment. 7.2 Conditions for safe storage, including any incompatibilities Requirements for storage : Store in original container. Keep ountainers tightly closed in a dry, cool and well-ventilated place. Further information on storage areas and containers : Keep away from heat and sources of ignition. Protect from moisture. Keep away from direct sunlight. Incompatible with strong acids and bases. Advice on common storage : Keep away from food and drink. Incompatible with stro | Ver 1.0 | sion | GB/EN | Revision 27.08.20 | | |

|-------------|-----------------------------|---------------------------|---|--|--|--|--|
| 8.2 E | 8.2 Exposure controls | | | | | | |
| | Personal protective | equipment | | | | | |
| | Eye protection | : | Safety glasses with side-shields conforming to EN166 | | | | |
| | Hand protection Material | : | Fluorinated rubber | | | | |
| | Break through tim | e : | > 480 min | | | | |
| | Glove thickness | : | >= 0.4 mm | | | | |
| | Directive | : | DIN EN 374 | | | | |
| | Protective index | : | Class 6 | | | | |
| | Remarks | : | Gloves should be discarded and replaced if there is any indi- cation of degradation or chemical breakthrough. The data about break through time/strength of material are standard values! The exact break through time/strength of material has to be obtained from the producer of the protec- tive glove. The choice of an appropriate glove does not only depend on its material but also on other quality features and is different from one producer to the other. Preventive skin protection | | | | |
| | Skin and body proted | tion : | Please wear suitable protective clothing, e.g. made of cotton or heat-resistant synthetic fibres. Long sleeved clothing | | | | |
| | Respiratory protectio | n : | Apply technical measures to comply with the occupational exposure limits. Use the indicated respiratory protection if the occupational exposure limit is exceeded and/or in case of product release (dust). | | | | |
| | Filter type | : | Combined particulates and organic vapour type (A-P) | | | | |
| | Protective measures | : | Ensure that eye flushing systems and safety showers are located close to the working place. Avoid contact with the skin and the eyes. Use only with adequate ventilation. | | | | |

Environmental exposure controls

Soil : Avoid subsoil penetration.

13.1 Waste treatment methods

| Product | : | Do not dispose of with domestic refuse. Do not empty into drains, dispose of this material and its con- tainer at hazardous or special waste collection point. Dispose of in accordance with local regulations. Send to a licensed waste management company. |
|------------------------|---|---|
| Contaminated packaging | : | Empty containers should be taken to an approved waste han- dling site for recycling or disposal. Store containers and offer for recycling of material when in accordance with the local regulations. Packaging that is not properly emptied must be disposed of as the unused product. Dispose of in accordance with local regulations. |
| Waste Code | : | The following Waste Codes are only suggestions: 08 01 11, waste paint and varnish containing organic solvents or other hazardous substances |

The transport classification(s) provided herein are for informational purposes only, and solely

based upon the properties of the unpackaged material as it is described within this Safety Data Sheet. Transportation classifications may vary by mode of transportation, package sizes, and variations in regional or country regulations.

14.7 Transport in bulk according to Annex II of Marpol and the IBC Code

Not applicable for product as supplied.

SECTION 15: Regulatory information

| 15.1 | Safety, health and environmental regulations/legislat ture | ion | specific for the substance or mix- |
|------|---|-----|--|
| | REACH - Candidate List of Substances of Very High Concern for Authorisation (Article 59). | : | Not applicable |
| | REACH - List of substances subject to authorisation (Annex XIV) | : | Not applicable |
| | Regulation (EC) No 1005/2009 on substances that deplete the ozone layer | : | Not applicable |
| | Regulation (EC) No 850/2004 on persistent organic pol- lutants | : | Not applicable |
| | REACH - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, | : | Conditions of restriction for the fol- lowing entries should be considered: |
