

Caliper Painting Kit

Everything You Need to Clean, Prep, and Paint Your Calipers!

- Eight Ounce POR-15® Cleaner Degreaser
- Eight Ounce POR-15® Metal Prep
- Four Ounce POR-15® Rust Preventive
- Four Ounce POR-15® Caliper Paint
- 2 Pairs of Gloves and Two Applicators
- Detailed Instructions and Tips

Nothing ruins the appearance of a sharp set of wheels like dirty, corroded calipers lurking from behind. Now, dress up those steel or aluminum calipers with a super-tough durable finish. Our new caliper paint is beautiful in appearance, and strong enough to withstand the punishment of road debris and temperature extremes. And it looks terrific on any car or truck. Then, whenever your calipers get covered with dirt and brake dust, clean them with anything you like; the POR-15 Caliper Paint will stand up to just about anything.

NEW KIT PACKAGING!

Product Information

Caliper Painting Kit

Everything You Need to Clean, Prep, and Paint Your Calipers!

Product Description

Excellent Coverage and Protection for Your Calipers!

Covers four standard truck or car sized calipers with two coats. This kit includes the unbeatable POR-15® rust preventive system and the ultra tough POR-15® Caliper Paint that will give you a unrivaled ceramic like finish.

Application Information

INSTRUCTIONS: Wear gloves, eye, and respiratory protection when handling products.

Step 1: Remove all wheels from vehicle. Calipers don't need to be removed. Don't remove brake line.

Step 2: Clean surfaces to be painted with POR-15 Cleaner Degreaser. Spray on the cleaner and brush the dirt, grease and grime with a small scrub brush or toothbrush. Wear protective gloves and glasses when cleaning your calipers. Read directions on POR-15 Cleaner Degreaser container before using.

Step 3: Rinse cleaned caliper thoroughly with water and dry with clean towel. Now apply POR-15 Metal Prep and keep surface wet for 20 minutes and then wash off POR-15 Metal Prep with water and dry thoroughly.

Step 4: Mask off the areas not to be painted. Tape off the brake bleeder screw, brake lines, and caliper piston boots and anything else you don't want painted.

Step 5: Open the POR-15 Rust Preventive Coating and stir, making sure the contents are thoroughly mixed. Use foam brush (included) and paint the caliper evenly, making sure the coating is evenly applied but not to the point where the paint runs.

Step 6: When the POR-15 Rust Preventive Coating is just dry to the touch, with slight finger-drag remaining (2-5 hour range without Dry Time Accelerator), it's ready for the POR-15 Caliper Paint to be applied. Open the can of POR-15 Caliper Paint, stir thoroughly, and apply the first coat in thin but even strokes. When the first coat is dry (3-4 hours), apply a second coat to achieve a beautiful ceramic-like finish.

Refer to Material Safety Data Sheet available upon request for further safety and handling information.

Safety Information

DANGER! VAPOR AND SPRAY MIST HARMFUL. OVEREXPOSURE MAY CAUSE LUNG DAMAGE. MAY CAUSE ALLERGIC SKIN AND RESPIRATORY REACTION, EFFECTS MAY BE PERMANENT.
